

Welcome to the Morgan Library & Museum!

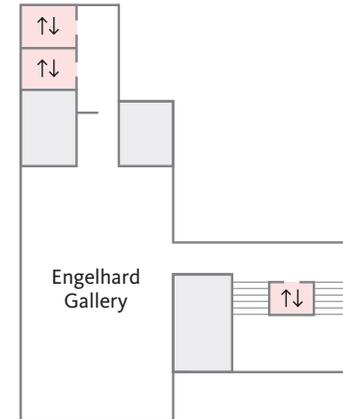

FIND OUT WHAT'S ON VIEW NOW!
themorgan.org/exhibitions

Through our exhibitions, collections, and programs, the Morgan celebrates human creativity from 4000 BCE to the present, with the conviction that meaningful engagement with art, literature, music, and history enriches lives and deepens understanding.

The Morgan began as financier J. Pierpont Morgan's personal library. Travel back to the Gilded Age in our historic library, where Belle da Costa Greene, trailblazing librarian and our inaugural director, worked from 1905 until her retirement in 1948. Discover inspiring exhibitions in the galleries and enjoy the harmony of old and new through a stunning renovation by architect Renzo Piano.
